**INCI NAME:** Limnanthes Alba (Meadowfoam) Seed Oil  
(and) Hydrogenated Vegetable Oil

### Description

**LIMBUTTER** is a soft ivory to cream colored butter derived from Meadowfoam Seed Oil. It conserves the natural qualities and skin care effects of Meadowfoam Seed Oil.

The word “Meadowfoam” refers to an herbaceous winter annual plant native to the Pacific Northwest area of the United States and to the depth of its white flowers in the bloom stage resembling a meadow of foam.

### Meadowfoam Seed Oil: Extra Long Chain Fatty Acids

Meadowfoam Seed Oil contains over 98% fatty acids having chain lengths of 20 carbon atoms or more, which is unique when compared to the other vegetable seed oils. These long chain fatty acids contribute to the exceptional stability of this oil.

### Benefits of Limbutter

- Improves the spreading in finished products
- Penetrates easily into the epidermis
- Moisturizes and revitalizes the skin
- Gives the skin a natural, smooth, silky appearance and feeling
- Helps to stabilise emulsions and to adjust viscosity

Suggested Applications

- Suntan lotions
- Hand/ face creams
- Body oils and creams
- Shaving creams
- Foundations, face powders: forms a membrane to prevent moisture loss and provides an excellent cushion feeling on the skin
- Rouges, lipsticks: helps revitalize dry, cracked lips
- Hair products: provides natural shine and body to the hair

Main Characteristics

Appearance at 20°C	Soft, ivory to cream solid
Odour	Low, characteristic
Melting range, °C	50 - 60
Iodine value	80 max.
Saponification value	155 - 180
Acid value	2,0 max.

Standard Packaging

White plastic pails, 25 kg net

Storage

Store in a cool dry place in original unopened containers

Shelf Life

24 months in original unopened packaging
