

Vegetal Moisturiser TS

Preservative free

100% Vegetable Origin

INCI : Helianthus Annus (Sunflower) Seed Oil (and) Olea Europaea (Olive) Oil Unsaponifiables (and) Hydrogenated Vegetable Oil (and) Glyceryl Stearate (and) Phytosterols (and) Tocopherol

Vegetal Moisturiser TS is a new, completely vegetable emollient which is perfectly adapted to modern cosmetics.

Sunflower Seed Oil is of considerable interest due to its significant **moisturising** and **emulsifying** properties.

Vegetal Moisturiser TS helps to enhance and stabilise natural skin hydration while leaving a barrier which reduces moisture loss.

Vegetal Moisturiser TS shows exceptional water absorption capacity and can form easily W/O emulsions with water.

Vegetal Moisturiser TS has unique sensory properties, it has excellent slip characteristics on application to the skin and leaves a very elegant soft after-feel.

Cosmetic Benefits of **Vegetal** Moisturiser TS

- exceptional water absorption capacity
- totally NATURAL emollient and moisturiser for skin and hair
- penetrates easily into the epidermis
- active source of phytosterols
- possibly a non animal derived alternative to lanolin.
- excellent skin after-feel

Suggested Applications of **Vegetal** Moisturiser TS

Can be incorporated as an active ingredient in the oil phase of an emulsion.

- premium skincare emulsion bases such as creams/lotions/butters for the face and body
- suncare products especially aftersun
- hand & nail creams / lotions
- hair products such as conditioners, styling products, gels, etc....,
- cosmetics such as foundations, lipsticks, blusher, etc....,
